

NOTICE OF MOTION

At the Residents Committee Members Meeting to be held on 23/2/24
(Date)

I would like to propose a Motion that:

The composition of Resident Committee be changed from 5 to 7

This allows for a diverse range of people skills and knowledge to represent a growing community.

The committee would be able to divide subject among members, instead of ~~relying~~ relying on one or two members to investigate and report on matters.

This should also assist with more committee members being present at resident quarterly meetings. ie it is not leaving it up to two members.

Motion moved by Lynette London
